

Tentative Program for the 1989  
FASEB Conference  
Calcium and Cell Function  
Vermont Academy  
Saxton Rivers, VT  
July 9-14, 1989

- Session 1     Hormonal Regulation of Calcium Homeostasis
- |                      |                                     |
|----------------------|-------------------------------------|
| Howard Rasmussen     | Yale                                |
| Henry Kronenberg     | Harvard                             |
| Mark Haussler        | Arizona                             |
| Michael G. Rosenfeld | University of California, San Diego |
- Session 2     Calcium Regulation in Excitable Cells
- |                 |          |
|-----------------|----------|
| Richard Tsien   | Stanford |
| Thomas Vanaman  | Kentucky |
| Lutz Birnbaumer | Baylor   |
| P. Michael Conn | Iowa     |
- Session 3     Calcium Release Mechanisms
- |                  |                      |
|------------------|----------------------|
| Kevin Campbell   | Iowa (Vice-Chairman) |
| Soloman Snyder   | Johns Hopkins        |
| Ernesto Carafoli | Switzerland          |
- Session 4     Calcium Regulation of Smooth Muscle
- |                  |                   |
|------------------|-------------------|
| Andrew Somlyo    | Pennsylvania      |
| Richard Murphy   | Virginia          |
| Joseph Bryan     | Baylor            |
| Anthony R. Means | Baylor (Chairman) |
- Session 5     Calcium and the Protein Phosphorylation Cycle
- |                  |             |
|------------------|-------------|
| — Paul Greengard | Rockefeller |
| Howard Schulman  | Stanford    |
| Claude Klee      | NIH         |
| Hiroyoshi Hidaka | Japan       |
- Session 6     Calcium in Growth and Development
- |                    |          |
|--------------------|----------|
| William Klein      | Texas    |
| Renato Baserga     | Temple   |
| Richard Steinhardt | Berkeley |
| Masayori Inouye    | Rutgers  |
- Session 7     Novel Calcium Control Mechanisms
- |                  |                |
|------------------|----------------|
| Michael Crumpton | England        |
| John Glenney     | Salk Institute |
| Daniel Storm     | Washington     |
| Koichi Suzuki    | Japan          |

Session 8      Genetic Analysis of Calcium Function

Ching Kung	Wisconsin
Trisha Davis	Washington
Kathy Beckingham	Rice
Colin Rasmussen	Baylor

Session 9      Structure and Function of Calcium Binding Proteins

John Putkey	Texas
Robert Kretsinger	Virginia
Larry Jones	Indiana
Pompa Volpe	Texas
